Set in the vast medieval realm of Eldoria, a kingdom forged in the aftermath of ancient wars against ogre clans that once threatened humanity's existence.

 Eldoria is a land shaped by elemental magic, political intrigue, and diverse cultures. Its territories range from towering frostbitten mountains to enchanted forests that shift their paths, volcanic ridges, forbidden swamps, bustling trade towns, sacred rivers, and a fortified capital built over ancient mana wells.

Within Eldoria operate powerful groups such as knightly orders sworn by the Code of Steel, mage circles that command fire, nature, shadow, and storm, assassin brotherhoods that move unseen, and warrior tribes of the north hardened by ice and battle.

The kingdom's history is marked by civil wars, arcane disasters, ancient prophecies, and legendary artifacts–some holy, some cursed, some capable of reshaping fate itself. Modern threats now rise again: ogre warlords unite, crops fail, forbidden magic resurges, the dead grow restless, and prophecies foretell coming doom.

This rich, interconnected world contains names, dates, events, places, factions, relics, species, magical laws, and political systems– requiring careful retrieval rather than guesswork.

Your Task

You must build a Retrieval-Augmented Generation (RAG) chatbot capable of answering questions strictly using the provided Eldoria dataset. Your chatbot must:

Chunk, index, and embed the content effectivelyRetrieve accurate information from the text

Generate grounded answers without hallucinating

Demonstrate a clear retrieval mechanism

Use any LLM API or RAG library of your choice

Avoid using outside-world knowledge

EXAMPLE QUESTIONS & ANSWERS

Q1. What event is prophesied to occur "when the moon weeps red," and which faction is responsible for confronting it?

Answer: The prophecy says that "the dead shall walk" when the moon weeps red, signaling a massive undead uprising.
The Oathbound Paladins are the faction prepared to confront this threat, using their sacred light magic against corruption and undead forces.

Q2. Which enchanted forest shifts its paths based on its mood, and what phenomenon appears there at dusk?

Answer: The Elderwood is the enchanted forest whose pathways shift according to the forest's mood.

Q2. During the founding of Eldoria, where did the tribal leaders gather, and why was this site significant?

Answer: They gathered at The Gathering Field, a ruined battlefield still covered in ashes from destroyed settlements.
It was symbolically chosen because it represented humanity's shared suffering and unified resolve after the First Ogres' March.
